

May 26, 2015

Dear Dr. Lopez-Vidriero,

On behalf of the Women's Tennis Association (WTA), I would like to thank you for providing outstanding care to our players. Thank you for your feedback of the Madrid Tournament. Eva Scheumann, our Senior Manager of Tournament Operations, will liaise with the tournament and WTA operations to ensure your feedback is communicated.

The WTA vision is to be the most inspirational and exciting sports entertainment experience on earth. The WTA mission is to create a premier, compelling global sports entertainment experience to engage fans and generate exceptional value and long-term growth for members and partners. The Sports Sciences & Medicine department strives to contribute by following our departmental philosophy of offering the players of the WTA the highest quality and most state-of-the-art comprehensive care with emphasis on prevention by striving to minimize injuries, promote overall safety, health and well being and impact optimal performance; thereby advancing the game and strengthening the popularity of women's tennis. Your expertise at the Madrid Tournament has certainly contributed to achieving the vision, mission and philosophy of the WTA and for that, we are grateful.

We invite you to keep up with the WTA players and the latest in tennis medicine through the [WTA health website](#) and the [Society of Tennis Medicine and Science \(STMS\) website](#). We will also email you the WTA "Physically Speaking" newsletter throughout the year. This newsletter is used as an educational tool for the players and professionals in the tennis arena. If you have any specific topic ideas and/or are interested in authoring a topic please let me know.

We appreciate the time and expertise you brought to the players through your stellar medical care and hope you enjoyed working with the WTA Primary Health Care Providers, Massage Therapists and other members of the WTA team.

Respectfully,

A handwritten signature in black ink, appearing to read 'Kathleen Stroia'. The signature is fluid and cursive, with the first name 'Kathleen' and last name 'Stroia' clearly distinguishable.
